**Stonestreet One Becomes Associate Member of the Bluetooth Special Interest Group**

Louisville, KY, December 4, 2000 - Stonestreet One is pleased to announce it has been awarded Associate Member status by the Bluetooth Special Interest Group (SIG). Stonestreet One, a premier provider of Bluetooth products and services, including turnkey Bluetooth application development and integration services, is already classified as an Early Adopter member of the SIG. Now, through its new Associate Member status, the company will have critical, early access to working drafts of Bluetooth specifications for use in its varied Bluetooth application development projects. Additionally, Stonestreet One, with its Bluetooth expertise and recognized commitment to furthering Bluetooth application development, is now invited to become involved in select Bluetooth "working groups" - groups that will help to shape future Bluetooth standards.

"We are pleased and honored to have received this status that, to date, has been awarded to relatively few members of the Bluetooth Special Interest Group," stated Joe Reilly, VP of Sales & Marketing with Stonestreet One.

"We welcome Stonestreet One as an Associate Member of the Bluetooth Special Interest Group", said Simon Ellis, Chairman of the Bluetooth SIG Marketing Group, and Communications Marketing Manager with Intel Corporation. "With Stonestreet One's Bluetooth application development background, we look forward to their increased involvement within the Bluetooth SIG."

Bluetooth wireless technology enables devices to communicate seamlessly without wires. Its global specifications have been designed to offer a low cost, small footprint, wireless solution for up to 10 or 100 meter voice and data transmission. Stonestreet One has positioned itself at the forefront of this emerging technology, offering a variety of products and solutions such as its Bluetooth protocol stack, Bluetooth development tools, and Bluetooth application development services; providing total Bluetooth solutions.

Stonestreet One will be showcasing its popular Bluetooth products and application development solutions, including its Bluetooth Protocol Stack, in San Jose, CA in Booth 218 at this year's largest North American Bluetooth Developer's Conference, December 4th through the 7th. For additional information, Stonestreet One's website is <http://www.stonestreetone.com>.
