**STONESTREET ONE AND MONTAVISTA SOFTWARE TEAM TO OFFER
EMBEDDED BLUETOOTH SOLUTIONS**

Louisville, Kentucky - March 27, 2003 - Stonestreet One, a leading provider of Bluetooth technology solutions, announced today that it is teaming with MontaVista Software, Inc., the company powering the embedded revolution, to provide developers of embedded wireless devices the tools necessary to bring a broad range of Linux-based Bluetooth applications to the consumer, automotive, aerospace, industrial and medical device markets.

Stonestreet One is the developer of Bluetopia®, a BQB qualified Bluetooth protocol stack, which has been ported to many operating systems, including Linux. Stonestreet One is committed to providing quality middleware communication software to MontaVista Software's customers.

"Teaming with MontaVista Software makes perfect sense as our companies are both focusing on the embedded space and targeting the same markets," said Tim Reilly, Chief Technology Officer for Stonestreet One. "The combination of Bluetopia and MontaVista Linux Consumer Electronics Edition will allow our customers to bring reliable and cutting-edge Linux-based Bluetooth devices to market quickly."

"To enable customers to rapidly bring rich consumer electronics devices to market, MontaVista Software partners with companies who can deliver to them, both, a business and a technological edge. Stonestreet One's certified Bluetooth protocol stack solution is an excellent fit with MontaVista Linux," said Scott Hedrick, Senior Product Marketing Manager, MontaVista Software.

About Stonestreet One

Stonestreet One designs, develops and integrates short-range wireless solutions and has been developing custom Bluetooth solutions for a diverse group of customers since 1999. Stonestreet One's designs and software are enabling and enhancing wireless devices in industries such as mobile communications, biomedical, material handling, consumer products, aerospace and automotive. Stonestreet One is a Bluetooth design partner for a number of leading semiconductor, electronic component manufacturers and distributors.
